### Tip Causes Five Arrests and Capture of Munitions on New Orleans Ships

BY FLOYD J. HEALEY  
"Times" Staff Correspondent  
SAN FRANCISCO, Nov. 18. (Exclu-  
sive)—The naming of Los Angeles

a raid on what is believed to be an arsenal from which arms were to be shipped to revolutionists in countries friendly to the United States particularly Mexico was only one

several developments today in the investigation of the munitions seizure in the East Bay yesterday which now has the police of five cities, State and Federal authorities trying to piece together its several implica-

clared a fugitive from justice by Dist.-Atty. Warren of Alameda county following issuance of a warrant charging violation of the new State law making the possession of machine guns a felony.

(2.) The name of a Los Angeles attorney was discovered in one of the letters seized at the home of Mannerstam in Albany, near Oakland where the raid has uncovered thou-

(3.) The name of the head of a Los Angeles bail bond brokerage concern, appeared in correspondence covering the issuance of bail bonds to Mannerstam and Andrew Olsen in connection with the impending government prosecution of Mannerstam.

(4.) The name of a United States Senator was contained in a letter urging an appeal to him to prevent the danger of a Los Angeles conviction.

Information developed in yesterday's East Bay seizure brought about the arrest today of five men in New Orleans and the impounding of 7500 rounds of ammunition about to leave that port on two ships, one showing

Honduras, and the other destined for Tampico, Mex.

Don't worry about where to go Thanksgiving Day. Decide to go either to Travaglini's Roma Rotisserie at 1801 W. 7th or Travaglini's San Clemente Cafe which is just two blocks from the Roma.

Travaglini is famous for his delicious roast turkey and is a perfect host so that you are certain to enjoy your day spent here or in San Clemente. Counter dinner at Travaglini's Roma Rotisserie cost \$1.25, table service will be \$1.75, served from 12 noon until 9 p.m. At Travaglini's beautiful San Clemente Cafe the very special turkey dinner will be but \$2.25 a plate, served also from 12 noon until 9 p.m. There will also be a la carte service. Make your reservations at the very earliest date, though, won't you?

If butter will not gather when churning, add a tablespoonful of baking soda dissolved in a pint of water: churn a moment and it will gather nicely.

More good news this week for my readers! You know we all want to have the Beggars Opera at the Philharmonic, but many feel the cost of tickets was more than could be afforded. Now Young's Market Company, Seventh and Union, have secured the exclusive privilege of selling the special rates for the famous comic opera. Tickets will be here Friday and Saturday nights and Saturday matinee, November 25th and 26th. Now you will have the advertising desk at Young's, 1610 W. Seventh, or telephone DUmkirk 2201, you may secure exchange slips which will secure the \$1 seats for 50 cents; the \$1.50 seats for 75 cents; \$2 seats for \$1.10 and \$2.50 seats for \$1.65 (including tax). Don't miss this chance to see the remarkable Beggars Opera, will you? Oh, yes, let me remind you that Young's will personally select turkey at the low price of 58 cents a pound. Price starts Monday.

Test for pure butter—Put a little butter in a teaspoon and hold it over a flame. If pure, it will bubble quietly; if adulterated, it will crackle and sputter as it becomes heated.

You must pay a visit to the new California Nut Store, which has just had its formal opening at 804 S. Broadway, near the Tower Theater. A truly ideal location for their old and new patrons who may be shopping in the vicinity. The same high-class nuts and candy may be procured in the new shop, only there will be a larger selection to choose from. The Tower Theater candies are now to be had. Let's show our appreciation of the fine nuts. Robber supplies us with just around the corner and gift-making necessary. Joining this class at Mathews (which costs you nothing, being entirely free) will be interesting and profitable as can be—only don't delay too long, will you?

THANK YOU MR. GUMP—WE'LL BREAK ALL RECORDS COLLECTING THAT BONUS—

DON'T RUN AWAY, PALL—I WON'T LET HIM GET YOU!

BUT I DON'T WANT HIM!

Don't worry about where to go Thanksgiving Day. Decide to go either to Travaglini's Roma Rotisserie at 1801 W. 7th or Travaglini's San Clemente Cafe which is just two blocks from the Roma.

Travaglini is famous for his delicious roast turkey and is a perfect host so that you are certain to enjoy your day spent here or in San Clemente. Counter dinner at Travaglini's Roma Rotisserie cost \$1.25, table service will be \$1.75, served from 12 noon until 9 p.m. At Travaglini's beautiful San Clemente Cafe the very special turkey dinner will be but \$2.25 a plate, served also from 12 noon until 9 p.m. There will also be a la carte service. Make your reservations at the very earliest date, though, won't you?

If butter will not gather when churning, add a tablespoonful of baking soda dissolved in a pint of water: churn a moment and it will gather nicely.

More good news this week for my readers! You know we all want to have the Beggars Opera at the Philharmonic, but many feel the cost of tickets was more than could be afforded. Now Young's Market Company, Seventh and Union, have secured the exclusive privilege of selling the special rates for the famous comic opera. Tickets will be here Friday and Saturday nights and Saturday matinee, November 25th and 26th. Now you will have the advertising desk at Young's, 1610 W. Seventh, or telephone DUmkirk 2201, you may secure exchange slips which will secure the \$1 seats for 50 cents; the \$1.50 seats for 75 cents; \$2 seats for \$1.10 and \$2.50 seats for \$1.65 (including tax). Don't miss this chance to see the remarkable Beggars Opera, will you? Oh, yes, let me remind you that Young's will personally select turkey at the low price of 58 cents a pound. Price starts Monday.

Test for pure butter—Put a little butter in a teaspoon and hold it over a flame. If pure, it will bubble quietly; if adulterated, it will crackle and sputter as it becomes heated.

You must pay a visit to the new California Nut Store, which has just had its formal opening at 804 S. Broadway, near the Tower Theater. A truly ideal location for their old and new patrons who may be shopping in the vicinity. The same high-class nuts and candy may be procured in the new shop, only there will be a larger selection to choose from. The Tower Theater candies are now to be had. Let's show our appreciation of the fine nuts. Robber supplies us with just around the corner and gift-making necessary. Joining this class at Mathews (which costs you nothing, being entirely free) will be interesting and profitable as can be—only don't delay too long, will you?

To make smelling salts, use an ounce of ammonia, or rock volatile, break it in small pieces, put it in a bottle and cover with essential oil; let stand a few days and it is ready for use.

Aluminum dishes can be cleaned on the inside by boiling tomato skins and bits of the discarded vegetable in them, or water containing a little vinegar.

After you have had your lesson at Mathews Paint Company, 1245 S. Hill, and found it so interesting and so instructive in every way, tell your friends about it that they, too, may spend their leisure time in so interesting a way. Just think of being taught how to apply plastic wood ornaments to furniture and transform a bottle and cover with essential oil; let stand a few days and it is ready for use.

DANCE RHYTHM ON AIR TONIGHT

Devotees of Terpsichore to Have Full Swoy

Most of California's Stations Plan Similar Programs

Don Lee Offers Another Treat from KHI

BY DR. RALPH L. POWER

The irresistible appeal of dance music rhythm will float into the ether tonight from most broadcast stations of California. Plans for tonight's programs promise some especially good numbers.

KMTB between 10 and 11, while KX's music is scheduled from 10 o'clock until midnight, to be followed by the frolic hours.

OTHER STATIONS

KFON Long Beach will have its orchestra selections for a two-hour period beginning at 10 o'clock, while San Diego's KFSD will have its orchestra selections from 10 to 11, with dance music from 11 to 12.

There will be no dance music at KFI, but their frolic program will open at 10 o'clock, following a three-hour chain program.

KMCI is to be on the air from 10 to 12, and KFSD from 10 to 11, with dance music from 11 to 12.

The broadcast of dance music has developed the scientific placing of the use of two or three instruments. The correct transmission of orchestra and ensemble programs requires the use of two or three instruments. The correct transmission of orchestra and ensemble programs requires the use of two or three instruments.

With the keynote of diversity, the Don Lee programs over KHI continue to bring to the listeners a wide range of musical appeal. Last night another rare treat was discovered in the presentation of a solo act by Pryor Moore and his concert orchestra. The ensemble numbers were interspersed with violin solos by the orchestra.

There were several vocal soloists, including a tenor new to KHI, KHI's soloist was accompanied by Louise Miller.

On the hour broadcast commencing at 9 o'clock, the time signals and weather report, an American program was broadcast. The drum and bugle corps entertained, and the radio orchestra played a vocal and instrumental selection.

PORTABLE STATION NOW AT INGLEWOOD

INGLEWOOD, Nov. 18. (Eve) KGM, a portable broadcast transmitter, is temporarily installed in this city and operating on 204 meters. It is under the direction of Jay Peters, who acted as operator for the KHI radio station.

The present schedule calls for entertainment nightly from 8 to 10 p.m. Most of the programs are phonograph recordings.

SAN FRANCISCO, Nov. 18.—Stanford wants to play U.S.C. in the New Year's Day classic at Pasadena, and nobody else.

The Reds have not been invited to represent the West in the annual, football struggle with the East, and there is no assurance from any source at Palo Alto that the Reds will accept. If they do get the bid, they are likely to warm toward a game with a representative 11-0 team at Pasadena, but a real game with U.S.C. in which their decision might be reversed, based on praise of joy on all sides.

POPULAR GAME  
If the Tournament of Roses Association wants to stage a game that is not with favor from all corners, it may have to do so in the East-West angle and invite Stanford and U.S.C. to settle their account.

SAN FRANCISCO, Nov. 18.—California fight and California breaks may carry the day at Palo Alto tomorrow, but in non-partisan circles, where only cold calculation and impartial reasoning enter into consideration, Stanford is given the edge to win the thirty-fifth annual football struggle between these old rivals by a substantial margin.

LET DOWN FOR BEARS

Then the smart boys figure that Washington played their hardest game against Stanford and in losing a struggle they should have won naturally let down when they played California last week-end.

But whether Stanford is the favorite or not, the battle is going to draw the biggest crowd in history at a "big game." The enlarged Stanford stadium with its new blue-colored superstructure will seat 87,000 cash customers, exclusive of the inhabitants of the city.

### NEW YORK OUSTS DUNDEE

Gotham Boxing Board Puts Welter Champion and Jack Sharkey on Black List

NEW YORK, Nov. 18. (P)—Two prominent pugilists, Joe Dundee of Baltimore, world's welterweight champion, and Jack Sharkey, Boston heavyweight, were put under suspension today by the New York State Athletic Commission, but the sting was extracted from Sharkey's ban by approval of his excuse of an injured finger for not fighting Tom Henney at Madison Square Garden tonight.

Dundee is suspended for his part in the recent fracas at Los Angeles, where the welter king refused to go into the ring for a match with Ace Hickins at the last minute because his entire purse was not forthcoming. Although the New York commission does not have a working agreement with California boxing authorities, it took the position that the participation of Dundee and his manager, Max Waxman, in a dual contract arrangement violated New York rules and thereby subjected them to suspension here.

Although Sharkey had been declared in condition to meet Henney by Boston examiners, two physicians of the New York Commission found in Boston heavyweight suffering from a finger injury which they considered sufficient to keep him out of the ring for the present. The commission, accepting this verdict, announced that its suspension of Sharkey was automatic under the rules governing fight cancellations, but explained that he will be reinstated on accepting a new date for a bout with Henney.

### BILL ROPER EXPECTS YALE TO DEFEAT HARVARD SQUAD BY TWO TOUCHDOWNS TODAY

BY W. W. ROPER  
(Famous Football Authority, and Princeton Coach)

NEW YORK, Nov. 18. — Interest in football this week, aside from the Harvard-Yale game, centers in the Middle West. Last week the East held the center of the stage. But now the big games are between the Western Conference teams, and several traditional rivals meet for the last battles of the season.

There is always interest in the Yale-Harvard game, but Harvard's record to date has not been impressive, though the Crimson will not be any se-up.

I expect a close fight, and will be surprised if Yale wins by more than two touchdowns. Harvard always plays its best game against Yale, no matter what sort of a showing it has made before. And since the war, Yale has never looked impressive against Harvard.

In 1925, Princeton beat Harvard.

### PULLMAN TEAM PRIMED FOR TERRIFIC CLASH

#### Aerial Battle Looms in Tilt at Coliseum

BY BRAVEN DYER  
Southern California's Trojan, the mightiest scoring machine on the Pacific Coast, today face the first of three difficult and hazardous hurdles which lie between them and a perfect season.

The Washington State Cougars, although a gridiron outfit as overtrodden as the turt, constitute a hardy obstacle, and history proves that these hardy athletes of the north are not easily surmounted.

The collision takes place at 2:15 o'clock this afternoon at the Coliseum. Whether the Trojans are to successfully clear the first hard hurdle of their strenuous fifteen-day campaign and continue on to the Notre Dame and Washington hazards depends to a large extent on the mental attitude of Howard Jones' athletes.

NOTHING TO LOSE

Babe Hollingbery brought his boys to town yesterday morning and they went right out to the Coliseum for a workout. The Cougar coach has faced many disappointments this season, losing to Washington and the Oregon Aggies and getting only a tie with Idaho.

Washington State has nothing to lose and everything to gain in today's battle, and goes into the clash prepared to "shoot the works." Hollingbery has told his able and brilliant field general, Herbert "Butch" Meeker, to use everything in the Cougar category of plays and the Trojans are likely to see a bewildering variety of wide-open formations for the visitors excel at this type of attack.

#### Ancient Foes in Historic Grid Scrap

BY BRAVEN DYER  
With the Southern California Conference football championship at stake, Pomona and Occidental clash this afternoon on Alumni Field, Claremont.

The game is billed for 2:15 o'clock, a preliminary contest between two of the two institutions preceding the main event. If Pomona wins the Sagheens will walk off with their second title in as much as a 7-year winding up the season with six victories, no draws and one tie.

U.C.L.A. also has a perfect record barring the 7-to-7 tie with the Bruins play only one conference game to avoid seven for Pomona. Should Occidental thump their rivals today the Bruins will ride the Tigers a wave of thanks for U.C.L.A. will grab the title for the first time in history.

FAVORITES MEAN NOTHING

Pomona enters the game a slight favorite but favorites mean nothing at all when the two ancient rivals tangle on the gridiron. We can recall one year when Pomona's team was so good everybody expected Occidental to be trimmed by five or six touchdowns. The final score was only 9 to 0 in favor of the Sagheens and everybody felt so bad at Pomona that you would have thought Occidental had actually won the game.

Occidental has not displayed the form of which she is capable this year and if the boys should happen to get going today it would not be surprising to see Coach Reedman's team win. The Tigers have a tremendous advantage in reserves and also go in to the battle with weight very much in their favor, especially in the line. Being outwitted on the forward wall doesn't seem to bother the Sagheens' linemen, however, for the situation existed in the Bruin game and all the Pomona backs did was in fear Bill Spaulding's line to shreds.

BACKFIELD IS CLASSY

Pomona's famous backfield, the class of the conference, goes into action today for the last time as a unit. Capt. Jack Manliet and Harold Merritt are playing their third and final year of conference football together and they'll be fighting for all

Except for the second period and the closing minutes of play, the game was a one-sided affair. The Wizards' offense was a perfect example of the "hurry-up" game, and the Van Nuys defense was completely out of sync.

## HOW TROJANS AND COUGARS TAKE FIELD AT COLISEUM

Capt. Morley Drury Ready to Start for Trojans

Consistent gains, so the air is likely to be filled with football. The Trojans have been making considerable gains in the conference on the creation of new plays and if hard pressed today fans will see some nifty formations. Of course, the Trojans will be under every spring any of this new stuff, which he wants to save for Notre Dame and Washington.

ALL EYES ON MEERKE. Meeker will be the cynosure of all eyes this afternoon. Two years ago he was the most applauded player on the field as the Cougars achieved their victory over the Trojans. Last year, although Washington State lost by a 16-0 score, Meeker was still a star.

This is his last intercollegiate game. He's captain of the Cougars and could close his playing career in a big way. He is leading his boys to victory over one of the undefeated teams in the conference. All defeats would be forgotten by Pullman fans and Meeker could retire as one of Washington State's great players.

The little fellow rises to an occasion as only real leaders can and somehow he is able to make his side with the same battling spirit.

Washington State's starting lineup today includes eight players who were in the Trojans last year. They are Meeker, quarterback; Gustafson, fullback; Rohrer and Horan, halfbacks; and Parkhill, end.

Incidentally that game in 1926 was one terrific battle, in case you've forgotten. The Trojans' center, scores on their running attack and had to resort to the air. "Red" Jabro and Morley Drury made two sensational catches to put over two touchdowns. The Cougars got their tally on a pass late in the game. Southern California's defense was a real test for the Trojans.

Capt. Morley Drury will start at quarterback for the Trojans, despite the handicap of his injured eye. It is unlikely that the optic will be damaged further in today's struggle and Jones does not expect to have any trouble with Drury warming the bench. Russ Saunders and Roy Jones are the two interesting halfbacks, while at their regular posts, with Don Moses playing the fullback and the Trojans' defense is a real test for the Trojans.

The Trojan line presents a lowly looking front. The Trojans' line is made up of the following: Jones, center; and the Trojans' defense is a real test for the Trojans.

They're worth today. Manli is without a doubt the best quarterback in the circuit and is a wizard at returning punts. Merritt has no superior in the conference as halfbacks go, being a triple-threat star of the brightest hue. He and "Poke" Hartman, the sensational, and-faced sophomore, form a back-packing duo unsurpassed in conference ranks. If Merritt has one of his big days today, as seems likely inasmuch as it is his last appearance, the tide of victory will probably swing over to the Sagehens.

Hartman has been an outstanding star all season with his phenomenal ball carrying, accurate passing and lengthy kicking. Occidental will find him a tough boy to stop.

Lee Williams, the fourth member of the backfield, has been converted from an open-field runner into a plugging fullback. He hits hard and once through the line of scrimmage he is as sure as a gun. He is a real man, which is warbling plenty.

PRIDE AND JOY. This backfield is the pride and joy of Eugene Nixon's life and if it is functioning properly behind "Beefy" Heath's fast-charging line fans will see a lot of action.

Merritt has no superior in the conference as halfbacks go, being a triple-threat star of the brightest hue.

He and "Poke" Hartman, the sensational, and-faced sophomore, form a back-packing duo unsurpassed in conference ranks.

If Merritt has one of his big days today, as seems likely inasmuch as it is his last appearance, the tide of victory will probably swing over to the Sagehens.

Hartman has been an outstanding star all season with his phenomenal ball carrying, accurate passing and lengthy kicking.

Occidental will find him a tough boy to stop.

Lee Williams, the fourth member of the backfield, has been converted from an open-field runner into a plugging fullback.

He hits hard and once through the line of scrimmage he is as sure as a gun.

He is a real man, which is warbling plenty.

PRIDE AND JOY. This backfield is the pride and joy of Eugene Nixon's life and if it is functioning properly behind "Beefy" Heath's fast-charging line fans will see a lot of action.

Occidental's backfield today will feature Johnny Eberhardt, Jack Schweitzer, Hunt and Howe.

These four chaps are referred to as the second backfield but as far as we are concerned they're better than the so-called regulars.

Eberhardt is the best of the lot, being a splendid line plunger. Hunt is an able field goal kicker and if the game gets tight his education may turn out to be a real asset.

## No New Year's Grid Game for Trojan Election

Following is the statement yesterday noon by Prof. Hugh C. Klett and approved by President Kleinmud of the University of Southern California:

"Due to current conditions, it seems wise to say that the University of Southern California football season will not be held on December 3, 1927, as was previously planned for the only football game of the season."

December 3 was given up to the University of Southern California for the football season. The game was to be held at the University of Southern California stadium.

## GAS COMPANY SELLS INTEREST

New Eastern and Western Capitalists Enter

Large Investment Retained by Local Group

Chase National Bank Part of Buying Syndicate

Sale of a substantial minority interest in the Southern California Gas Company to eastern and western investment banking interests, represented by the Chase Securities Corporation, Stone & Webster, Inc., Pynchon & Co. of New York, and Hunter, Dulin & Co. of Los Angeles, was announced yesterday by Alexander B. Macbeth, executive vice-president of the Southern California Gas Company.

The Southern California Gas Corporation, a Delaware corporation, has been formed to purchase the stock of the Southern California Gas Company after the completion of its consolidation with the Midway Gas Company, Central Counties Gas Company, Hanford Gas and Power Company, River Bend Gas and Water Company and Valley Natural Gas Company.

BOARD CONTROLLED HERE

The board of directors of the Southern California Gas Corporation will be controlled by local interests, the new interests in the East having a minority position on the directorate. It is contemplated to enlarge the board to include additional representatives of Los Angeles business men.

Mr. Macbeth, who has been executive vice-president for several years, will resign as president of the company, to be succeeded by Mr. Kerchhoff, together with A. C. Balch and Ben R. Meyer, former owners of the company, have been made vice-presidents of the new corporation. These three men and others retain large financial investments in the company.

No change in the policy of the company is contemplated, and it is not anticipated that there will be any material change in the personnel of the operating forces.

Mr. Macbeth stated that the transaction just consummated by Messrs. Kerchhoff, Balch and Meyer, together with eastern bankers and public utility men was brought about by their desire to take in associates in the business, which they felt would be carried practically alone, and to relieve them of some of their responsibilities.

The preferred stock of the new Southern California Gas Corporation will soon be offered by a syndicate of California bankers headed by Hunter, Dulin & Co., in association with the Eastern interests.

Upon completion of the consolidation of the Southern California Gas Company and five other affiliated companies, the company will have total estimated assets of \$66,000,000. Earnings of the company during the past year have been increasing almost from month to month, and the heavy consumption period at hand, the new corporation is expected to inaugurate operations in an improved financial position.

Hotel Project Granted Permit

According to the application of the Montecito Company which yesterday was given a permit by J. M. Friedlander, State Corporation Commissioner, to issue and sell a portion of its capital stock, the company will take over the new hotel now under construction at Olive Hill Road and Coast Highway at Montecito. The location is one and a half miles from Santa Barbara.

The company proposes to complete the construction of the hotel, a coffee shop and a dining-car garage about February, next. Don B. Sebastian is president, Raphael D. Myers, secretary, and J. M. Friedlander, a director of the corporation which has a capitalization of \$250,000, representing 2500 shares, none of which is to be offered publicly.

Daley Named on Advisory Board

J. A. Daley, president of Daley's, Inc., operating chain stores and wholesale grocers in Southern California, has been elected a member of the advisory board for the Seventh and Central branch of the Bank of Italy National Trust and Savings Association, the bank announced yesterday.

The Seventh and Central branch is located in the heart of the wholesale produce district. Mr. Daley founded and still controls Daley's, Inc., operating 180 retail stores, twenty-four cash and carry wholesale service stations, a large wholesale house and a bakery plant.

Besides Mr. Daley, the members of the advisory board include L. Small, chairman; A. E. Barker, James A. Barlett, W. T. Oerow, vice-chairman; F. M. Henson, F. L. Cucchi, Charles D. Egbert and Nicola Ghilini.

COLLEGE HEAD HEARD

Whittier President Gives Talk at Building-Lon Gathering

When the method pursued by community effort is supported by inspirational motives, and these motives crystallize into public opinion, the success of any community enterprise is assured, Walter F. Dexter, president of Whittier College, told the Building-Lon Section of the Southern California Association of Building-Lon Societies at its monthly meeting at the Windsor Tea Rooms yesterday. His subject was "Community Development."

The campaign of education which a number of the associations of the organization engaged in the latter part of 1926 and the first part of 1927, through the newspapers and other advertising media, to acquaint the people of Southern California with building-lon activities was prompted by inspirational motives, Mr. Dexter said.

## STATE AID ENLISTED FOR FIGHT

Corporation Bureau to Join Local Exchange in Dubious Stock War

Co-operation between the State Corporation Department and the Los Angeles Stock Exchange, which is expected to result in the elimination of undesirable stock issues from the list of public offerings, was announced yesterday following a conference between J. M. Friedlander, State Corporation Commissioner, and Norman B. Courtney, secretary and manager of the exchange.

Following the conference, it was stated that among the things agreed upon will be an investigation to determine if there appears to be any prospect of success for companies which have numerous assessments on outstanding shares, and if the money paid on such assessments is being properly expended.

It is found that the condition of companies is hopeless or that assessments are expended for purposes other than to benefit the company, the State Corporation Commissioner will order the securities stricken from the list and the corporation will be instructed not to sell them, Mr. Friedlander stated.

Having learned a costly lesson from the recent collapse of two corporations, Western Lead and Julian Petroleum, the Los Angeles Stock Exchange and the State Corporation Commissioner have taken several important steps forward to insure, so far as it can, the protection of the public dealing in the securities listed on the exchange.

WOMAN PROMOTED

Mrs. M. B. Atkinson to Manage Travel Bureau of Seaboard Branch

Mrs. M. B. Atkinson, one of the active women bankers of the city, has been appointed manager of the travel bureau of the Seaboard National Bank, according to an announcement yesterday by President George L. Browning.

Mrs. Atkinson is one of the best-known of the Seaboard employees. She has been holding the position of assistant manager of the Wilshire branch of the institution, which has shown a rapid growth of business in the last few months, it was stated by the bank officials.

THE INVESTOR

NEW YORK, Nov. 18.—Satisfying an increasing demand for health-giving whole wheat products, three Bennett brothers built up the F. H. Bennett Biscuit Company, with an original investment of \$55,000 twenty years ago, to a concern having an equity of almost \$1,000,000.

In adopting an expansion program, necessitated by a shortage of production facilities, the company took its trade name, Wheatworth, for popularizing which it had spent thousands of dollars in advertising.

Until the latest financing for a new plant to triple output only \$150,000 of new capital had been added since the company's formation, its growth having been financed almost exclusively out of reinvested earnings.

Wheatworth's rise in the industry, although considered remarkable in comparison with some ventures, is explained largely by the fact that it supplies its products without competition a type of whole wheat "cracker," flour and cereal for which there is an ever-growing demand.

Several factors have combined to stimulate demand for whole wheat products, chief among which have been a steadily increasing demand for health-giving foods, a persistent demand for ready-made, trade-marked package foods, and a constant rise in the standard of living.

Wheatworth's growth, reflected in net profits, has compared favorably with that of others in the biscuit industry. In the last five years, it has been figured, net profits of National Biscuit have gained 32 1/2 per cent of Pacific Coast Biscuit, 35 per

## EDISON LEADS RIVAL IN NET

Southern California Company Lags Behind Pacific Gas in Market Price, But Shows Higher Earnings

BY EARLE E. CROWE  
Within the last few days Southern California Edison common has made another bid to close the gap in market price between Edison and Pacific Gas and Electric common. For the last several months Pacific Gas has easily held the lead, selling around 45, while Edison common has ranged in the lower thirties. The latter stock, in the last day or so, has moved up to 40, five points behind the Northern California utility.

First one and then the other has held the market leadership in the past. Both are among the largest hydroelectric companies in the world, and operations are similar in many respects. But it appears, upon examination of nine months' earnings reports, that the Edison company has a comfortable edge over its rival in this respect. Knowledge of this fact increases the difficulty of explaining the difference in market price.

NET EARNINGS \$2.15  
Pacific Gas reported net earnings available for the common after all charges of \$2.15 for the first nine months of the year. This amount is calculated on the basis of the average amount of stock outstanding during this period. On the amount outstanding as of September 30, last, the earnings figure out at \$1.94 a share.

Here are comparative Edison figures: Estimating depreciation, which is not reported by Edison, the net available for the common on the average amount of stock outstanding in the nine months was \$2.52 a share. This is 40 cents a share higher than the Pacific Gas earnings figure, but the latter company's outstanding as of September 30, Edison still holds the lead, the earnings being \$2.98.

The Edison net after depreciation and all other charges was \$3,302,058 for the nine months, an increase of 25 per cent over the earnings for the corresponding period of 1926. This amount does not include oil royalties or income other than from public utility operations.

Comparison of the increases in gross earnings of the two companies for the nine months shows that Edison's increase was 13 per cent, while that of Pacific Gas was 12 per cent.

The amounts diverted to surplus after the payment of dividends is also of interest. Pacific Gas reports a surplus of \$1,507,679 after dividends, while Edison shows \$1,938,078.

On the basis of the nine months' results, the twelve months' results will give Edison a surplus of \$3,156 a share on the common, and Pacific Gas about \$2.68. Last year Edison's earnings were \$2.52 a share and Pacific Gas \$2.54 for the full twelve months.

Both of the companies have been favored in the past with valuable subscription rights, which have been exercised by the shareholders. Plans are being formulated which common holders were given rights to subscribe on the basis of one share of the common for one share of the new stock. It is difficult to explain the disparity in the market prices of the two stocks. Perhaps one reason is the lower price of the Edison common, which has been listed in New York and the consequent wider public interest.

There is on the other hand, the compensating influence of the increased returns from the principal operating assets. The financial position of asset-rich and even some manufacturing areas more definite signs of expanding operations have been apparent. The great steel trade has been tardy in coming but a gradual uplift in that quarter is in progress now, with unexpected price advances on some forms of material.

Weekly bank clearings, \$10,473,000, an increase of 14 per cent over last year.

PLAN OF ACME CAN CONCERN APPROVED

The Acme Can Company, which yesterday obtained a permit from the State Corporation Commissioner, to dispose of 431 shares of its capital stock, will engage in the manufacture of metal and other containers. The company is acquiring the assets of a going concern, operated under the name of Conn & Spencer Manufacturing Company in East Seventeenth street, Los Angeles. Officers of the new company are Robert C. Conn, president; Thomas J. Spencer, and it has a capitalization of \$100,000.

ROAD BOND ISSUE OF LUMBER COMPANY GETS STOCK PERMIT

Organized for the purpose of buying and selling lumber and dealing in lumber products Phil B. Hart Lumber Company yesterday received a permit from J. M. Friedlander, State Corporation Commissioner, to dispose of all of its capital stock to the officers and directors. The officers are Phil B. Hart, E. Reynolds, C. Merriman, Jr., and E. F. Fox. It will operate in Los Angeles.

## BANK HOLDING UNIT FORMED

Pan American Company Gets Permit to Sell Stock

Will Have Capitalization of \$5,000,000

Incorporators Members of Bank's Directorate

Completion of the organization of the Pan American Company with an authorized capital of \$5,000,000 was announced yesterday by F. W. Smith, president of the Pan American Bank of California, who will head the new corporation as president.

The announcement was coincident with the issuance of a permit authorizing the company to sell to its incorporators 50,000 shares of its no par value Class B stock for \$500 a share, after which it is further authorized to sell 40,000 shares of its Class A stock, bearing a 7 per cent preferred dividend, at \$500 a share, in units of four shares of Class A and one share of Class B stock for \$100 per unit.

The Pan American Company, organized under Delaware laws, will conduct its business in close cooperation with the Pan American Bank of California, Mr. Smith said. It has broad corporate powers permitting it to engage in a wide field of financial operations, including investment banking, investment trusts, mortgage investment and as holding company for the stocks of other corporations.

DIRECTORS LISTED  
Incorporators and the initial board of directors, all members of the Pan American Bank, are C. J. von Zibr, H. V. Helm, H. B. Henning, Theodore T. Hull, Will E. Morris, J. M. Smith, Philip H. Roberts, F. W. Smith, John A. Van Hook, and Frank L. Wood. Officers are as follows: F. W. Smith, president; H. V. Helm, vice-president; Will E. Morris, treasurer, and H. B. Henning, secretary.

The company has opened offices at 1111 Broadway, New York City, and at 1111 Broadway, New York City, and at 1111 Broadway, New York City.

PURPOSE GIVEN  
"Pan American Company," Mr. Smith said, "will perform a number of services for customers of Pan American Bank and for the public which are not within the scope of banking operations and for which we have found sufficient demand to warrant the establishment of a new company as well as profitable for its stockholders."

Our immediate operating program for the company is limited to investment banking and mortgage investment. The purchase of 50,000 shares of the company's no par value Class B stock will provide a substantial increase in the company's capital to limit the sale of the Class A shares to the 40,000 shares authorized by the present permit.

Wholesalers in Los Angeles territory report holiday buying below a year ago, according to the weekly review of conditions by the Bradstreet Company. Weather conditions, while favorable to winter crops and are increasing immediate sales in the country districts. Have affected city sales materially. Larger hotels report business good, but hotels for nearly depending on so-called winter business are complaining that hotel building during the past two years has more than taken care of demands.

Rate and electrical supply houses report business fairly good. Hardware conditions are fair, but furniture trade continues quiet with better prospects at holiday season. Employment conditions are very satisfactory considering the influx at this time of year. This applies to both skilled and unskilled labor.

Crops and weather conditions are very good. Records show increased shipments of oranges and slightly smaller shipments of lemons at good prices. Receipts of produce and fruit in local markets are fairly steady with prices slightly higher.

ERIE STEAM SHOVEL DECLARES DIVIDEND

NEW YORK, Nov. 18. (P)—Erie Steam Shovel Company, which is being merged with Bucyrus Company, long declared a dividend of 20 cents on certificates of deposit for common stock and 50 cents on certificates of deposit for preferred stock, both payable January 1, holders of record December 15. The regular quarterly of 1 3/4 per cent on the preferred also was authorized, payable March 1 to stock of record February 15.

The Newberry company operates a store in Los Angeles. The company, with headquarters in Los Angeles and operating throughout the West, has moved its store to 1044 North Main street, between the chain of the country and leads all other grocery organizations.

Sales of the twenty-two chain organizations for the ten months of this year with the percentage increase over the same period last year were as follows:

114—HOLDING COMPANIES

Although types of holding companies are to be found in almost every kind of industrial organization, it is within the field of the public utilities that these concerns have shown their greatest development. The reason for the modern utility holding company lies in the assumption that the consolidation of several operating utilities under one central organization will result in greater efficiency and economy in operation and administration than could be secured by these enterprises operating separately under necessarily smaller and less expert organizations.

From a financial viewpoint, these concerns are virtually investment companies, holding in their treasury the stocks, bonds and notes, usually amounting to a controlling interest of operating gas, electric, water, street-railway and telephone companies. These securities form the holding company's main assets, and against them it issues its own long-time debentures. ## FINANCIAL SEERS DISAGREE

Wall Street Opinion Diverges on Cause of Unusual Improvement in Sterling Exchange Rate

BY PAUL WILLARD GARRETT  
NEW YORK, Nov. 18.—Sterling exchange's spirited advance to \$4.87 1/2 this week set a new peak since 1914, but does not lift it to the point at which London can pull gold away from New York. The present gold point probably is near \$4.36, the principal variable in the calculation being freight rates.

The extraordinary improvement in the pound sterling at a season of the year when normal influences are toward weakness, is exciting comment in the financial district. The upward in sterling dates so plainly from the time that the Federal Reserve System inaugurated its easy-money program that the easy explanation for the rise lies in a statement that New York funds are being transferred to London for temporary employment. Money rates over there are still somewhat, if not much, higher than those here.

There are bankers who do not accept this explanation, however, and the conduct of their business they do not find any real volume of New York funds moving to London. These bankers give emphasis to the fact that the easy money program is a temporary phenomenon, and a fair volume of wool is being sold. Manufacturers and topmakers are showing interest especially in fine and half blood domestic wools, especially territory and Texas. Prices show a hardening tendency.

The fall Texas wools were all sold this week, prices having ranged from 35 to 36 1/4 cents at Del Rio. The foreign markets are generally firm. New Zealand opened the season high. Montevideo has reduced extreme asking prices somewhat on finer qualities. Australia is very strong.

Mohair is in moderate request at unchanged prices.

The rail and water shipments of wool from Boston from January 1, 1927, inclusive, were 17,417,000 pounds, against 17,417,000 pounds in 1926, to November 17, 1927, inclusive, were 17,417,000 pounds for the same period last year. The receipts from January 1, 1927, to November 17, 1927, inclusive, were 17,417,000 pounds against 17,417,000 pounds for the same period last year.

The Commercial Bulletin will publish the following wool quotations tomorrow:

## GENERAL STOCK TREND UPWARD

(Continued from Twelfth Page)

another 7 points today. Heavy buying of Pan-American issues followed the announcement of a Mexican Supreme Court decision in favor of the subsidiary, Mexican Petroleum. Except for the establishment of new highs by Norfolk and Western and New Haven preferred and the weakness of Reading, there was little interest in the rail group. Erie preferred issues were firm on reports that plans are pending for their retirement through the issuance of a new 6 per cent cumulative preferred.

Call money ruled steady at 3 1/2 per cent all day. Time money and commercial paper rates were unchanged.

Commodity markets were mixed. Cotton advanced slightly and wheat futures yielded a fraction of a cent a bushel. Sugar held steady and coffee quotations fell back about 25 points.

Foreign exchanges were slightly easier. Demand for sterling ruled around 13 1/2-13 3/4 and French francs around 3.35 cents. Japanese yen, which have been weak during the past ten days, rallied about 10 points.

## Heavy Selling Turns Cotton Prices Lower

NEW YORK, Nov. 18. (Exclusive)—The cotton market today under pressure of scattered liquidation and southern selling from the opening to today, as the result of the weakness that was displayed yesterday when general liquidation closed prices between 35 and 40 points under Wednesday's final prices. Most of today's selling was due to the adverse sentimental influence of the decline, being followed by the equivalent of it in the late trading at Liverpool yesterday, and also there today. Futures then closed barely steady today at a net decline of about 7 to 8 of their points, against just that amount due to have met our closing while spot cotton was down 17 points to 16 1/2 for middling.

In the early decline here prices went off about 5 to 6 points from yesterday's closing to the new low levels since early buying of 10,000 bales for December to about 19.30 cents for January, and 19.50 cents for 19 1/2 cents for March to May contracts.

A better class of trade buying, particularly by spot houses, developed after this decline with this support checking the activities of some of the local trading element on the near side, most of whom had been very bullish at the top prices just before the last government crop estimate was announced on the 9th inst. of 12,940,000 bales.

They were then expecting the estimate would be around 12,500,000 bales. Having been cut and taken the selling side of the market, they are now figuring on the government's annual crop estimate due December 3, to be over 12,000,000 bales. The chances now are the market will be both well liquidated and overvalued long before that crop estimate is due.

In the afternoon the market turned up on covering of shorts and new commission buying, but the maximum rise of 13 to 15 points over yesterday's closing before 3 o'clock, with December falling at 19.40 cents, January, 19.45 cents, March, 19.55 cents, and May, 19.65 cents.

Most of it was held in the later trading on the amount of the crop brought into sight for the dropping of to 61,000 bales, against 97,000 last week, and 799,000 last year.

## DOG WITNESSES CONVICT MARCO

Reputed Czar of Underworld  
Betrayed by Pair

Judge McCormick Comments  
in Passing Sentence

Six-Month Term for "Boss,"  
Who Appeals Case

Albert Marco, reputed power in city politics and alleged "boss" of the underworld, yesterday was sentenced to a term of six months in the County Jail and fined \$1000 by United States District Judge McCormick. Antonio Bruno, chief aide to Marco, was sentenced to thirty days and fined \$500.

Marco and Bruno were found guilty of operating the North End Pleasure Club at 1504 1/2 South Spring street. Probation agents on raiding the club last July found several bottles of liquor in the place.

Judge McCormick denied motions for a new trial and for stay of execution. Appeal bonds were fixed at \$10,000 for Marco and \$1,000 for Bruno. Bonds were immediately posted by both men and they were released pending appeal.

Before sentencing the defendants, Judge McCormick declared the most convincing testimony of Marco's connection with the North End Pleasure Club was the fact two ferocious police dogs were on guard in the club rooms when Federal agents raided the place and were quelled only by the sound of Marco's voice. This evidence of the dogs, Judge McCormick declared, was "more significant than the testimony of humans," for when the dogs obeyed Marco's command the fact was proof that Marco was their owner and operator of the club, he held.

Motion for a new trial was presented by Defense attorney White, who based the motion on affidavits signed by Marco and Van J. Cio to the effect that O. W. Child, a juror, had been reading a newspaper before the opening of court on the last day, the newspaper containing a story of Marco's trial. Judge McCormick stated that he did not consider the incident prejudicial.

## Bakers' Building Corner-stone to be Laid in Week

Impressive ceremonies will mark the laying of the corner-stone of the Bakers' Building at the sanatorium at Duarte on Thanksgiving Day. It was announced yesterday. Speakers representing the groups working for the building will appear on the day's program, which will include a number of musical selections. Men and women interested in the work of alleviating stricken consumptive workers are invited to participate in the ceremonies.

John P. Dalton, president of the State Federation of Labor heads a committee of trade union leaders who have pledged their indomitable support for the construction of the building. It is to be a modern brick structure containing twenty completely equipped rooms, and is to be erected as a memorial to the service rendered by the sanatorium to members of the baking industry.

## THE LANCER

(Continued from First Page)

can possibly hope to remain mistress of the seas.

Reduced to its essence, the real contention of the British experts at Geneva was that we should sit meekly by and allow England to outbuild the Navy of the United States.

With our long Atlantic seaboard to protect, and our far-flung possessions in the Pacific to defend, it is really more important for the United States than for England to maintain a two-power standard.

The safety of this country in time of war is predicated upon the decidedly slim hope that the Panama Canal will not be closed. One spy with a bomb could upset our entire national defense.

**ACTS ON WATTS PAVING**

Inasmuch as the county will proceed to permanently improve One Hundred and sixteenth street between Wilmington and Exposition Boulevards in Watts, City Engineer Shaw has today begun a proceeding that he is disregarding petitions for the paving of the thoroughfare. The county will proceed with the work, Mr. Shaw said, as soon as existing litigation over a sewer contract is completed.

## PAROLE FOR CRIMINALS CONDEMNED

Loeb Defense Lawyer,  
in Interview Here, Declares  
for Irrevocable Life Term

The fight against capital punishment is being retarded by the abuse of the parole system and the release of hardened gangsters and criminals from prison after they have served a term for heinous offenses, Benjamin C. Bachrach, one of the defense counsel in the Leopold-Loeb trial, declared in an interview at the Billmore yesterday.

"Persons who argue that the death penalty is a deterrent to crime forget," Mr. Bachrach says, "that the really hardened criminal who deliberately plans and commits murder often faces death when he goes out to shoot a police officer or another gangster."

If society really wants to protect itself from crime it should make it impossible without possible parole or pardon the fate of every habitual criminal, Mr. Bachrach believes.

"A murderer should be placed in a whole prison, given necessary food and be forced to work," Mr. Bachrach adds. "It would not cost the State anything to keep him and his family might receive some support from his labor. I believe there is a chance for the first offender, but a criminal, convicted more than once for the same type of major crime, should never be allowed any freedom. There should be no parole or pardon except where it is clearly shown an innocent man is convicted on perjured testimony."

## SERVICE GROUP NOMINATES

Maj. Evans Named for Head of Army, Navy and  
Marine Corps Association at City Club Session

Maj. E. E. Evans last night was nominated as president of the Army, Navy and Marine Corps Association of Los Angeles for 1928, to succeed Lieut.-Col. Seth Howard at a meeting of the organization held in the City Club rooms, 833 South Spring street.

Inasmuch as no opponents were nominated for the office of president or any of the subordinate offices, the entire corps of executives will be elected automatically at the December meeting and take office officially January 1.

Other officers nominated are: Commander Lingon B. Ard, United States Naval Reserve, first vice-president; Capt. Guy Lewis, Marine Corps Reserve, second vice-president; Lieut.-Col. E. H. Wilcox, Engineers Reserve, third vice-president; Lieut.-Col. M. S. Keyes, Army Reserve, secretary; First Lieutenant David Ruff, Army Reserve, assistant secretary; Capt. C. H. Luckey, Army Reserve, treasurer; Capt. Goldie I. E. Lawrence, chaplain, and Lieut.-Col. Andrew J. Copp, Jr., judge advocate.

**ADMIRAL PHELPS SPEAKS**

Rear-Admiral W. W. Phelps, commander of the base force of the United States fleet, was the principal speaker of the evening. He confined his talk largely to navy reminiscences and anecdotes of his early days in the naval service.

Dr. Alfred Cookman, instructor of biology at the Polytechnic High School, gave a lecture on "American Fighting Birds of the Air."

**PROGRESS OF WORLD  
TO BE DEBATE TOPIC**

Whether the world is getting to be a better place in which to live will be the subject of a debate the 21st inst. at 8 p. m. at the Hollywood Methodist Church, Vine street and Lexington avenue. The affirmative will be supported by A. A. Heywood, Mrs. L. G. Campbell, James I. Long, Jr., Mrs. Neva Thompson and Nathan Newby, Sr. The negative will be taken by J. C. Thompson, Mrs. L. M. Buck, Nathan Newby, Jr., Rev. Bob Shuler and Maj. Harvey Holden. J. W. Palmer will preside. Dr. J. A. B. Fry is pastor of the church.

# MYSTERY DEATH COMA RELATED

Mrs. Marion Wall's Physician Baffled by Stupor

Patient Insensible to Pain as End Approached

Others to be Called Today in Rigid Inquiry

With the ashes of Mrs. Marion Wall, wealthy woman who died of mysterious causes, under analysis of the County Coroner yesterday, Chief of Detectives Contreras of the District Attorney's squad last night plunged deep into the circumstances surrounding the woman's death.

Accompanied by Detective King and a shorthand reporter Contreras late yesterday took a written statement from Dr. J. C. Arnot, Culver City physician, who attended Mrs. Wall just prior to her death on October 10, last, at her home at 215 South Ardmore street.

**STRANGE STUPOR TOLD**

A strange stupor, under which the prick of a needle or a pin failed to give her the slightest twinge of pain came over Mrs. Wall a few days before her death, it was learned Dr. Arnot told the investigating detective; but the physician was unable to determine the cause of the stupor, although he believed it probably was from natural causes.

County Coroner Abernathy began an analysis of the dead woman's ashes shortly after Contreras obtained them from a vault in a local cemetery. Particular attention, it was stated, will be paid for possible traces of arsenic. An analysis of the vital organs, performed before cremation some time ago, showed no trace of poison, but it was declared that arsenic might have left the flesh and accumulated in the bones.

**INTEREST IN WILL**

As the investigation proceeded, considerable interest was evinced as to whether there will be any contest of Mrs. Wall's will, which left all of her property to her husband, who was fifteen years her junior.

The will has at least one unusual feature. It provides that in case of the death of her husband before herself, that a fund of \$10,000 shall be created for the benefit of a Great Dane dog and administered by a man friend. Other provisions in the will are to come before the Probate Court next week. The estate is said to be worth approximately \$500,000.

Dr. Cecil Reynolds, second husband of Mrs. Wall, who was married three times, is among those scheduled to consult with the District Attorney today. Dr. Reynolds is a nerve and brain specialist with offices in Hollywood. He separated from Mrs. Wall several years ago but it is believed that he may be able to throw some light on her former physical and mental condition.

**HUSBAND NOT CALLED**

Wesley Wall, the dead woman's third husband, with whom she was living at the time of her death, had not been asked for a statement by the authorities up to a late hour last night, nor was it indicated that he would be called today. A nurse who attended Mrs. Wall for thirteen days before she died is another of those scheduled to be questioned today.

"I don't care to discuss the case either than to say that I hope the authorities speed their investigation and clear the matter up," Wall declared last night.

"There seems to be some insidious influence prompting these repeated rumors and investigations," declared Attorney George W. Shaw, who is representing Wall and who was Mrs. Wall's attorney before her death. "I know of no reason to believe that Mrs. Wall was poisoned and I would be the first one to insist that the culprit be brought to justice if I thought there had been any foul play. Furthermore, I know of no one who is going to contest her will, which comes up for probate Monday."

**ALBAMBA OFFERS HELP**

A copy of a letter, written by the City Commission of Alhambra, notifying him that the president of the Alhambra commission had been delegated to work in conjunction with the Los Angeles Council for the extension and improvement of Alhambra avenue has been submitted by Mr. Shaw to the Council and placed on file.

**APPROPRIATION ASKED**

A request for an appropriation of \$1000 from public funds to be expended for advertising and publicity in connection with the second annual convention of the American Vocational Association was filed with the Council yesterday by the vocational association. The Council sent this plea to the Finance Committee and Mayor for perusal.

# AUTO SCENE OF WIFE ATTACK

Man Accused by Police of Breaking Glass to Hit Estranged Wife

George C. Murphy, 33 years of age, 6340 Longview avenue, was held by Hollywood police yesterday on a charge of battery, after striking his estranged wife when he saw her sitting in a car with another man.

Murphy was driving along Sunset Boulevard when he caught sight of his wife sitting in a parked car near the station. He stopped his car, broke the glass in the window of the car in which his wife was sitting and struck her on the jaw. In the meantime her companion had fled. Murphy got in his car and drove away.

Officer P. L. Sabers witnessed the action and gave chase, overtaking Murphy at Calhoun, avenue and Yucca street.

# GROWERS FIGHT MEXICAN QUOTA

Exchange Directors Move to Conserve Labor

Resolution Puts Case Up to Congressmen

Proposed Change Declared Menace to Crops

Coincident with the passage of a resolution by the California fruit growers and farmers at their annual convention at Stockton, condemning the proposal to put the entrance of Mexican labor into the United States on the quota basis, the board of directors of the California Fruit Growers' Exchange, representing 11,000 citrus growers, passed a resolution made public yesterday vigorously protesting the proposed restriction.

The resolution of the California Fruit Growers' Exchange is being sent to the Senators and Representatives from this State urging them to oppose the attempt to amend the immigration laws so as to put the entrance of Mexicans into this country on the quota basis.

The resolution points out that the citrus growers of California are almost entirely dependent upon Mexican labor to pick their crops. Other fruit growers, particularly those with seasonal crops, are confronted with the same problem.

Any attempt to curtail the labor supply, the directors declare, will necessitate the curtailment of crops and in the end result in the advancement of food prices.

**ADAPTED TO TASK**

Due to the climatic conditions which prevail in the citrus belt, it is declared that Mexican labor is physically constituted to perform the work required.

It is further pointed out by the members of the Citrus Growers' Exchange, that the influx of Mexicans into the border States is governed almost entirely by demand for labor in the various branches of agriculture and industry in which they are engaged. They are not permitted to become public charges and when there is no longer work for them to do they are sent back across the border.

The other border States are expected to join the California Fruit Growers' Exchange in demanding that the restrictive legislation be discussed.

Dr. George P. Clements, manager of the agriculture department of the Los Angeles Chamber of Commerce, is chairman of a committee representing Southern California at a specially called meeting of the border States at El Paso, at which the immigration legislation will be discussed.

# SHIP BOARD OFFICIAL TO SPEAK HERE

Dr. Julius Klein Will be Honor Guest at Luncheon of Chamber Tuesday

Dr. Julius Klein, director of the United States Shipping Board, will be guest of honor and principal speaker at a Chamber of Commerce luncheon Tuesday noon in the Alexandria.

While the present visit to the Coast by Dr. Klein will be his first in about five years, he has been in constant touch with the situation here and on numerous occasions has been instrumental in assisting Pacific Coast industries in their efforts to better prices and trade relations both in this country and abroad. His present trip to the coast will be in the form of a survey of conditions here.

In his talk at the chamber, Dr. Klein will tell of the trend of business in the United States since 1921. He also will talk on matters of interest to local shipping men and manufacturers.

T. W. Howell, who has been employed by the Chamber of Commerce for fifty-four years, was recently elected Mayor of Swansea, Wales.

# ORDER WILL PUT END TO MUSEUMS

Fire Commission Directs Chief Scott to Close Two Main-street Shows

The street of ballyhoo, dime museums and sideshows soon is to be no more. The Fire Commission yesterday ordered the closure of two of the main street museums.

Fire Chief Scott was ordered to close the World Museum, 509 South Main street, and the Dreamland Museum, both in the 600 block on South Main street. Both places, Chief Scott told the commission, are theaters under the terms of local ordinances, and while they have licenses to conduct exhibitions they are not Class A buildings, as provided by city ordinance.

Proprietors of both museums were present and denied they conducted anything but museums. The commission, however, authorized Chief Scott to close the shows.

# SHRINE BALL WILL BRING YULE FUNDS

Annual Christmas Appeal to Aid Poor Families Will Start Next Tuesday

To signalize the start of Al Malak's annual Christmas work in behalf of the needy of Los Angeles, the Shrine will give a charity ball in their temple in West Jefferson street Tuesday evening. According to Robert A. Hoffman, general chairman, plans are being made to take care of at least 10,000 dancers.

The sale of tickets and contributions of clothing, toys and food will enable the Shrine to supply Yuletide cheer for hundreds of poor families and thousands of little children. Potentate Sim W. Crabill said yesterday. Members of the temple, under the leadership of James W. Jump, are arranging a Christmas tree party in the Shrine Auditorium. A huge Christmas tree, Santa Claus, his reindeer and special scenery will greet the children, recruited from among the deserving poor of the city. Every child is to be given toys, fruit, nuts and candy. More than 6,000 guests are expected to attend the affair. Last year 4,000 articles of clothing were distributed to men and boys, and 6,000 to women and girls.

# GRADE-CROSSING CAUTION GIVEN

Safety Talker Pleads For Care in Looking Out for Slight Trains

There are two kinds of motorists who usually are in traffic accidents at grade crossings, those who think they can beat the train across and those who do not look to see if a train is coming. Sergeant Johnson said yesterday in his traffic safety talk over radio station KHJ.
